# CYBER SECURITY BY IGNITE

SERVICES 2024

## Trusted by Customers for Over 40 Years

With a strong history and trusted reputation in Government and across the Australian market, Ignite focuses on providing solutions and talented individuals and teams who align with your goals, culture, and vision.

## Fortify Your Business with Tailored Security Solutions by Ignite

Ignite can bring the skills, capability and expertise to prepare your organisation against the threat of business disrupting cyber-attacks.

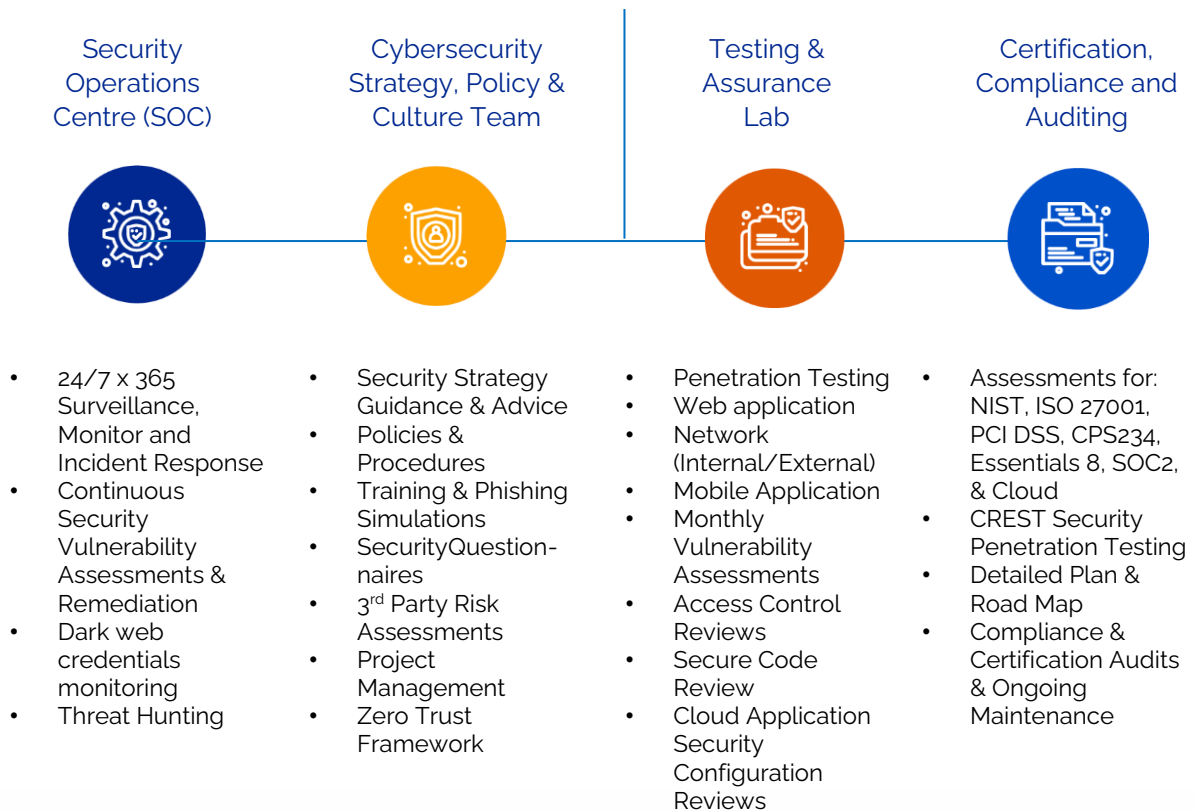

Safeguard your operations and maintain compliance with Ignite's customised and cost-effective security solutions. We take the burden out of audits and certifications, allowing you to focus on growth while keeping your data and business secure

## Our comprehensive Security and Resilience Solutions are designed to keep you resilient against evolving threats, ensuring continuity and peace of mind

Protect your business with our tailored and cost-effective security services designed to reduce the burden of compliance, identify vulnerabilities, and safeguard your data from evolving cyber threats. Our expert services streamline your security infrastructure, keeping your organisation resilient and prepared.

- **Cyber Assessments:** Identify potential vulnerabilities and weaknesses with a thorough cybersecurity assessment. Our evaluations offer insights into your current security posture, providing actionable recommendations to bolster your defences.
- **Cyber Strategy:** Develop a proactive, customised cybersecurity strategy to address your unique business needs. Our expert guidance ensures your organisation is ready to tackle future threats and regulatory changes.
- **Penetration Testing:** Simulate real-world cyber-attacks to test the strength of your security measures. Our penetration testing services expose gaps and weaknesses, offering targeted solutions to fortify your defences.
- **Cyber Managed Services:** Empower your business with ongoing cyber support through our managed services. From monitoring to incident response, our team provides continuous security to protect your operations.
- **Compliance and Certification Support:** Reduce the burden of audits and certifications with our compliance support services. We streamline processes to help your organisation meet industry standards and remain compliant effortlessly.
- **Data Privacy and Protection Services:** Safeguard your sensitive information with our data privacy and protection services. We help you navigate complex privacy regulations, implement robust protection frameworks, and maintain customer trust.
- **Cybersecurity Specialists:** Leverage our network of cybersecurity experts to safeguard your organisation. From short-term CISOs to cloud and cybersecurity specialists, Ignite provides the right talent to strengthen your security strategy and ensure compliance on a temporary

# Cyber Security Service Offerings

## Why Ignite?

- **Experienced and Agile:** With over 40 years of expertise, we combine our deep relationships and understanding of the market with the agility you need.
- **Specialists at Your Fingertips:** We tap into our extensive network to find the right talent, on your terms. Whether you need an expert, squad, or managed service.
- **Results-Driven Collaboration:** We don't just deliver a service; we become part of your team. Our hands-on, collaborative approach ensures that every solution is tailored to your unique challenges and goals.
- **Responsive:** You can always rely on us to be ready and responsive. We know your business changes rapidly, and you can trust us to keep up.
- **Smart Connections, Better Outcomes:** We leverage an ecosystem of expertise to deliver complete solutions.
